Accounting Concepts  
and Principles

QUESTIONS 1. The managerial accountant plays an important role in preparing the information necessary for effective planning and control decisions. One example is the budget, which is a quantitative expression of a company's long-run and short-run plans.

The difference between  
the two rates can be  
explained by looking at  
the denominator value  
and by remembering  
the basic accounting  
equation,  $A = L + SE$ .
