Description: The AAF Math Test is required for only students who are interested in enrolling in a higher-level math course as their first math course at USM. Students who have new SAT-M scores of 570 or above (or ACT scores of 22 or above) OR those students who have obtained a QAS score of 263 or higher can take the AAF test.

USM Advanced Algebra and Functions (AAF): Questions and ...

UCSMP Advanced Algebra. Main goal: The main goal of UCSMP Advanced Algebra is to improve and extend the algebra skills of students accumulated during the previous years of study to accommodate the topics traditional to a second algebra course. Main theme I: Functions provide a unifying theme throughout. Linear, quadratic, exponential, logarithmic, and trigonometric functions are covered, as well as functions of variation, sequences, and transformations.

Abstract Algebra: The Basic Graduate Year

However, are they relevant to the quantitative analyst? This is a tricky question to answer. While it isn't clear how a direct study of groups and symmetry might be applied on a day-to-day basis in the world of a quant, the study of groups does form the basis of many more advanced mathematical topics, particularly advanced Linear Algebra.
