It's a simple, inexpensive, electric brad nailer. No problems using it with my small craft project. Nailed 1x2 pine boards together at the angle cut ends using 5/8" 18 guage brads. Occassionally the brad didn't set fully but this was due to the angle of the nailer and/or not fully securing it before pulling the trigger. Two hands are required.

In mathematics, a cubic function is a function of the form $ax^3 + bx^2 + cx + d$ where the coefficients a , b , c , and d are complex numbers, and the variable x takes real values, and $a \neq 0$. In other words, it is both a polynomial function of degree three, and a real function. In particular, the domain and the codomain are the set of the real numbers.. Setting $f(x) = 0$ produces a cubic equation of the form

This book certainly covers a multitude of subjects! Racism, stereotypes, white privilege, sexual abuse and even ecology. A Good Neighborhood is not a fast paced read. When a well-to-do white family with two daughters (one is a 17 year old) moves in next door to a single, black mother raising her teenage biracial son, things start off well enough.

Bic Green, a.k.a. Black Ghost, is a world-class contract killer. Tormented by his inner demons, he clings to absolution from his evils by channeling his funds toward his goddaughter, Gracie, to help in her quest to cure cancer. In his final job, Bic plans each murder meticulously, creating elaborate ways to make each death look accidental.

As defined earlier, a plot of a histogram uses its bin edges on the x-axis and the corresponding frequencies on the y-axis. In the chart above, passing bins='auto' chooses between two algorithms to estimate the "ideal" number of bins. At a high level, the goal of the algorithm is to choose a bin width that generates the most faithful representation of the data.
