As usual, GIMP 2.99.8 is available on GIMP official website (gimp.org): The Linux development flatpak has already been published so that anyone who installed it previously should have an update proposed by their software manager (or from terminal: flatpak update org.gimp.GIMP//beta).

Development version: GIMP 2.99.8 Released - GIMP

8.2. Convolution Matrix; 8. Generic Filters ... GIMP uses 5x5 or 3x3 matrices. We will consider only 3x3 matrices, they are the most used and they are enough for all effects you want. If all border values of a kernel are set to zero, then system will consider it as a 3x3 matrix. The filter studies successively every pixel of the image. ...

Note: Even though you have to install GIMP from MacPorts in order to build the binaries for BIMP, they should work just fine with the self-contained GIMP build from gimp.org. In fact, you could probably uninstall the MacPorts version once the binaries are built, but you'll need to reinstall it each time you want to update BIMP.

It tries to be smart about figuring out whether you have gimp 1.2, 2.0, or both, but if it gets it wrong, you can make install-1.2 or install-2.0 explicitly. Pandora build requires gimptool, which is available on most linux distros (and Mac OS X) as part of a gimp-dev or gimp-devel package. You may also need a few other -devel packages, such as ...

Pandora: a GIMP Plugin for Making Panoramas

Great shot and great find. I'd say either one works; I'm not seeing the stack pick up much that the single shot wasn't getting you. (I do a fair amount of macro focus stacking at work, but I'm in a studio and have the luxury of taking 3 or 4 shots to stack, so not a fair comparison.)The composition isn't perfect, but it isn't bad either, and the subject and focus/defocus provides plenty of ...
