In both phenomenology and hermeneutic phenomenology, data can include the researcher's personal reflections on the topic, information gathered from research participants, and depictions of the experience from outside the context of the research project itself, including the arts, such as poetry and painting (Polkinghorne, 1989).

Hermeneutic Phenomenology and Phenomenology: A Comparison ...

Phenomenology, as research methodology, involves a certain degree of complexity. It is difficult to identify a single article or author which sets out the didactic guidelines that specifically guide research of this kind. In this context, the theoretical-practical view of Max van Manen's Phenomenology of Practice may be seen as a rigorous ...
