Acid-free papers are made using alkaline paper making technology. This means the pH of the pulp that is used to form the paper is above 7 (neutral). The paper is also buffered with an alkaline reserve, such as calcium carbonate, to neutralize acid compounds absorbed from the atmosphere or formed through natural aging.

### **School's Out Forever: Bruce High Quality Foundation ...**

His belief was that an organization that establishes good quality management principles will see savings returns that more than pay for the cost of the quality system: "quality is free". It is less expensive to do it right the first time than to pay for rework and repairs.

### **Philip B. Crosby - Wikipedia**

The idea of originality in art persists, leading to ever more genres and manifestations of art, such as digital art, performance art, conceptual art, environmental art, electronic art, etc. Quotes There are as many ways to define art as there are people in the universe, and each definition is influenced by the unique perspective of that person, as well as by their own personality and character.
