Many studies in information science have looked at the growth of science. In this study, we re-examine the question of the growth of science. To do this we (i) use current data up to publication year 2012 and (ii) analyse it across all disciplines and also separately for the natural sciences and for the medical and health sciences. Furthermore, the data are analysed with an advanced ...

MFS publishes theoretically engaged and historically informed articles on modernist and contemporary fiction. The journal's substantial book review section keeps readers informed about current scholarship in the field. MFS alternates general issues with special issues focused on individual novelists or topics that challenge and expand the concept of "modern fiction."
